01603 212203

### **Background Documents**

None

# Report

## Background

1. The County Council has allocated funds for highway maintenance and improvement works in the current financial year. These works have been carefully programmed to minimise as far as possible the impact on pedestrians and traffic. When necessary, appropriate diversions will be put in place and signed.
2. In addition to programmed highways works, Utilities Companies are permitted to carry out works to repair and replace their mains and cables in the adopted public highway. A significant programme of street-lighting upgrading will have an increasing impact on traffic in Norwich over the coming months
3. Despite the long-term benefits that accrue from works to upgrade and improve the condition of the Utilities Companies services and the public highway, the act of carrying out these works is viewed as a major inconvenience and source of annoyance to the travelling public. As far as possible, all works are co-ordinated to minimise disruption.
4. This summary forms the basis of the appended report for monitoring of major roadworks in and around the City.
5. More detailed roadworks information is provided online via the electronic local government information network at <http://norfolk.elgin.gov.uk>

## MAJOR ROADWORKS MONITORING REPORT

Location	Contractor	Site	Traffic Control	Start Date		Finish Date		Remarks
