General fund

3. Budgets reported include the resources financing the council's net budget requirement (which includes a contribution of £0.383m from reserve balances as allowed for in the medium term financial strategy) so that the net budget totals zero:

5. For the year to date, an underspend against budget of **£6.161m** is being reported. This underspend is made up of many debit and credit figures where various income and expenditure lines are ahead of or behind budget profile. Significant variances are explained below. These lines will be monitored closely as the year progresses to identify any potential impact on forecast outturn figures.

<i>General Fund Service</i>	<i>Variance To Date P9 £000s</i>	<i>Commentary</i>
Business Relationship Management	(1,048)	Shared services expenditure currently lower than profile however is expected to match budget by year end. Corporate and Benefits Admin grants received higher than budget to date. No use of the contingency fund to date.
Democratic Services	312	Timing differences in relation to elections costs and income. Awaiting transfer of income to net off against prior year accrued income reversal.

<i>General Fund Service</i>	<i>Variance To Date P9 £000s</i>	<i>Commentary</i>
Finance	(1,691)	Timing issue between the Housing Benefit subsidy received and expenditure. This is due to the set monthly payment from DWP which does not match the timing profile for expenditure. Due to align by the year end. Interest earned behind profile, forecast to match budget by year end.

Planning:	(506)	Planning income up on budget due to large applications distorting profile of income.
Property Services:	(643)	Depreciation to be charged on City Hall, works codes to be uploaded

Service Charges - General	442	Income from Anglian Water service charges lower than anticipated.
Adjustments and Financing Items	926	£917k relating to profit / loss on sale of assets in the Movements in Reserves (MiRS) cost centre, offset by corresponding credit against "Depreciation and Impairment".

Risks

9. A risk-based review based on the size and volatility of budgets has identified a 'Top 10' of key budgets where inadequacy of monitoring and control systems could pose a significant threat to the council's overall financial position. These are shown in the following table.

10. The red/amber status of items in the forecast RAG column is explained below.

Key Risk Budgets	Comment
Housing Benefit Payments and Subsidy	Although both of these areas are currently showing a red or amber RAG status, they largely offset one another. There is an overall net forecast underspend on housing benefits budgets of £11k.
HRA Repairs	Lower than anticipated requirement for general repairs (£249k); less painting (£350k) and internal wall insulation carried out than originally planned (150k); due to change in contractor (currently out to tender) no work in first 6 months (£200k).
Multi-Storey Car Parks	Forecast variance reflects additional income expected compared to budget.

11. The 2015-16 budgets approved by council were drawn up in the expectation of reduced resources as announced by the previous government. There are risks to the current and medium term financial position from:

- Further reductions in government grant – the localisation of business rates and of council tax reductions has increased the risks to the council's

financial position arising from economic conditions and policy decisions. In addition, recent government announcements indicate that further reductions in government funding are likely.

- Changes in policy – if further empowerment of local authorities is not matched by devolved resources
- Delivery of savings – the budget incorporates both savings measures already in place and those planned for implementation during the year. If these savings are not achievable in full, overspends will result. With appropriate approvals these may be mitigated through provision made in the corporate contingency, up to the level of that contingency
- Identification of further savings – work is continuing on developing proposals for additional savings to bridge the medium-term budget gap. If these proposals fall short, or are not implemented fully and in a timely manner, further budget shortfalls will result.

12. Forecast outturns are estimates based on management assessments, formulae, and extrapolation. They may not adequately take account of variables such as:

- Bad debts – budget reports show gross debt, i.e. invoices raised. While allowance has been made in the budget for non-collections, the current economic climate may have an adverse influence on our ability to collect money owed. This may be reflected in higher provisions for bad debt, as may the impact of welfare reforms such as the so-called bedroom tax.
- Seasonal factors – if adverse weather conditions or a worsening economic climate depress levels of trade and leisure activities in the city, there may be a negative impact on parking and other income.
- Housing repairs and improvements – the rate of spend on void properties, though closely managed, is heavily influenced by void turnaround, since transfers can create a chain of voids involving significant repair costs.

Financial planning

13. Overall levels of overspend and underspend will have an ongoing impact on the budget for following years and the size and urgency of savings requirements.

14. Net overspends and underspends will be consolidated into the general fund and housing revenue account balances carried forward to 2016-17. These are reflected in periodic updates to the medium term financial strategy and housing revenue account business plan.

Impact on balances

15. The prudent minimum level of general fund reserves has been assessed as £4.474m. The budgeted and forecast outturn's impact on the 2014-15 balance brought forward, is as follows:

<i>Item</i>	<i>£000s</i>
Balance at 1 April 2015	(9,615)
Budgeted use of balances 2015-16	383
Forecast outturn 2015-16	(1,344)
= Forecast balance at 31 March 2016	(10,576)

16. The general fund balance is therefore expected to continue to exceed the prudent minimum.
17. The prudent minimum level of HRA reserves has been assessed as £3.111m. The budgeted and forecast outturn's impact on the 2014-15 balance brought forward, is as follows:

<i>Item</i>	<i>£000s</i>
Balance at 1 April 2015	(20,181)
Budgeted use of balances 2015-16	13,933
Forecast outturn 2015-16	(909)
Adjustment to reflect reduced revenue contribution to capital against budget (see below)	(15,835)
= Forecast balance at 31 March 2016	(22,992)

18. The forecast revenue contribution to capital outlay has been reduced due to lower capital expenditure in year. Resources will be carried forward to fund future HRA spend.
19. The housing revenue account balance is therefore expected to continue to exceed the prudent minimum.

Collection fund

20. The collection fund is made up of three accounts – council tax, the Business Improvement District (BID) account, and National Non-Domestic Rates (NNDR).
- Council tax is shared between the city, the county, and the police and crime commissioner based on an estimated tax base and the council tax rates agreed by each of the preceptors. Any surplus or deficit is shared in the following financial year.
 - The BID account is operated on behalf of the BID company, to collect their income from the BID levy. Any surplus or deficit is passed on to the BID company.
 - NNDR income is shared between the city, the county, and central government. Since localisation, any surplus or deficit is also shared, rather than as formerly being borne wholly by the government.

21. There are particular risks attached to NNDR, which are:

- Appeals – the impact of any appeals will fall on the collection fund and therefore in part on the city. The Valuation Office has cleared a large number of appeals which has adversely affected the council's business rates income levels. However, a backlog of appeals remains and the value of the appeals is not known, nor the likelihood of success, nor the timing of the appeal being determined.
- NNDR billable – changes in the NNDR billable, e.g. demolition or construction of new billable premises, will impact on the amount billable. Assumptions of growth may also be affected by changes in the larger economic environment.
- NNDR collectable – arrears and write-offs (e.g. where a business goes into administration) will also impact on the collection fund.

22. These risks are monitored and mitigated through normal revenues operations.

23. A summary of the collection fund is provided below:

<i>Approved Budget £000s</i>	<i>Current Budget £000s</i>	Collection Fund Summary	<i>Actual To Date £000s</i>	<i>Forecast Outturn £000s</i>	<i>Forecast Variance £000s</i>
		Council tax			
53,797	53,797	Expenditure	45,257	58,606	4,809
(53,797)	(53,797)	Income	25	(58,606)	(4,809)
		Business Improvement District			
656	656	Expenditure	470	660	4
(656)	(656)	Income	(16)	(653)	3
		National Non-Domestic Rate			
77,698	77,698	Expenditure	56,173	70,771	(6,926)
(77,698)	(77,698)	Income	3,240	(70,771)	6,926
0	0	Total Collection Fund	105,149	7	7

24. On council tax, actual income is not posted from the council tax system into the finance system until year-end. The actual year-end surplus or deficit will be taken into account in considering distribution of balances between the preceptors (city, county, and police).

25. The council operates the BID account on behalf of the BID company, so no surplus or deficit will fall on the council's accounts.

26. Any deficit reported on the NNDR account will roll forward and be distributed in the 2016-17 budget cycle.

27. Additional (section 31) grant is received in the general fund to offset all or part of any shortfall in business rate income due to additional reliefs granted by government. All such grant monies received are transferred to an earmarked reserve and held to be offset against deficits in the years that they impact on the revenue accounts.

Budget and Expenditure – Monthly by Service Graphs

The following graphs show the monthly budget profile and income/expenditure to date for each service (both general fund and housing revenue account) for the financial year.

The actual income/expenditure reported is influenced by accrual provisions brought forward from the previous financial year, and by any delays in invoicing and/or payment.

Budgets are profiled to show the expected pattern of income and expenditure, and will be refined and improved during the course of the financial year.
