| Report to | Norwich Highways Agency Committee 22 January 2009 | Item Q |
|-----------|--|-----------|
| Report of | Head of Transportation and Landscape | 0 |
| Subject | Bus Stop Clearways | |
| | | |

Purpose

The purpose of this report is to inform members of the new legislation relating to bus stop clearways, to seek approval to introduce clearway markings at all existing marked bus stops within Norwich and to adopt a consistent approach to bus stops in Controlled Parking Zones

Recommendations

The Committee is recommended to

- (1) note that marked bus stops no longer require a traffic regulation order to make them legally enforceable;
- (2) agree that all existing marked bus stops are upgraded to include a clearway line and a no stopping except buses sign;
- (3) gree that in future bus stop cages, clearways and no stopping signs should be provided in locations where parking is likely to obstruct the bus stop.

Financial Consequences

The cost of funding this work will be met through the Local Transport Plan budget.

Strategic Priority and Outcome/Service Priorities

The report helps to meet the strategic priority "Strong and prosperous city – working to improve quality of life for residents, visitors and those who work in the city now and in the future" and the service plan priority of delivering the LTP.

Background Documents

Survey details

Background

1. Recently, the legislation related to bus stops has changed so that all bus stops that are marked on the ground by means of a bus cage, a clearway line and a no stopping except buses sign can be enforced without the need for the previously required traffic regulation order. The guidance states that all existing bus cages should now include the clearway line and no stopping sign, as shown on the plan attached as appendix 1.

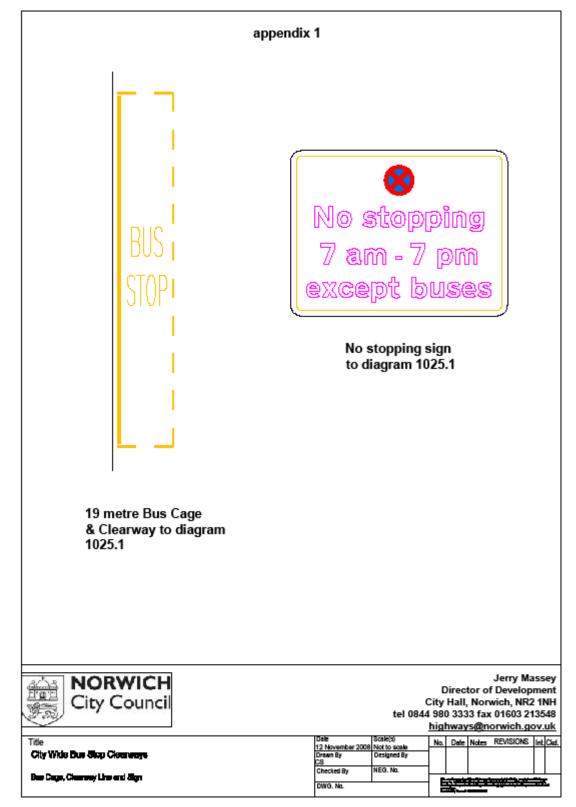

Work Required

- 2. In Norwich there are 519 bus stops, with 177 of these being marked with a bus cage. Of that 177, 109 are marked with a bus cage, a clearway line and a no stopping sign, so that they can be legally enforced without a traffic regulation order.
- 3. Of the remainder, 25 are missing the no stopping sign only, 4 are missing the clearway line and 27 are missing both. It is suggested that all of these are corrected so that they can be legally enforced. The list of locations affected is attached as appendix 2. The estimated cost of this is £10,000

Bus Stops with No Bus Cages

- 4. Currently there is no consistent approach as to when bus cages are provided at bus stops. Marking all bus stops in the City with bus cages is not considered to be practical, as it would cost in excess of £125k. It would present an on going maintenance liability for refreshing the lines, and in the residential areas with narrower roads, would be visually intrusive
- 5. As part of the Growth Project commitment to improving public transport in the south-west sector, it has been agreed to mark out all bus stops on the Earlham Road and Dereham Road corridors. This helps guarantee that the kerbside space is available for buses to stop in the correct position to align themselves with the DDA kerbs. It also has the added benefit of generally making the stops more visible.
- 6. Consideration has been given to adopting this approach across all bus stops on the A and B class road network. However this would involve marking an additional 99 bus stops at a cost of approx £40k. Many of those stops are on existing double yellow lines, and therefore they are unlikely to be obstructed by parked cars. Instead it is suggested that only stops that are not currently protected by double yellow lines, and where parking is likely to occur are marked. The list of affected stops is attached as appendix 3. The estimated cost of this is £5k
- 7. In future it is recommended that new bus cages should be provided when bus stops are likely to be obstructed by parking.
