National Non-Domestic Rates

1. National Non-Domestic Rate income for 2020/21 was initially estimated at around £76m. Due to the impact of Covid19 and the increased discounts and grants of around £42m that have been introduced by Central Government, we are currently estimating that we will need to collect around £34m this year.
2. Significant work will continue to be undertaken by the Revenues and Benefits team to pursue all outstanding debts owing to the council, but due to the ongoing situation surrounding Covid19, there is uncertainty as to the long-term impact that this will have on our collection and the economy.
3. There will unfortunately always be debts where despite our best efforts, it is believed to be irrecoverable. This is often because the company owing the money has become insolvent. In the year to 26/05/2020 £4,694.94 of NNDR debt has been written off.
4. The reason for this report is that two amounts totalling £342,951.00, require cabinet approval for write-off, because of their value.
5. The first is for Monsoon Accessorize Limited as they have a CVA (Company Voluntary Arrangement) in place as of 03/07/2019. The account relates to 232 Merchants Hall, Chapelfield. As part of the arrangement we have received a total of £32,256, paid at a rate of £5,376pm from 01/10/2019 to 01/03/2020 inclusive. A further payment of £6048 will be received in respect of arrears under the compromised arrears section of the CVA. The balance of £109,536.00 needs to be written off. For an IVA or CVA to be approved, 75% of the voting creditors must approve it and in this, case our debt was almost insignificant in comparison to the other creditors. CLT have previously authorised a write-off of £31,827.60 for Accessorize Ltd, on account 9493111 due to the same scenario.
6. The second write-off is Top Shop / Top Man Properties Limited where a CVA has been in place since 12/06/2019. The amount needing to be written off on this account is £233,415. In this case it is expected that we will receive 5p/£ (which equates to £12,285) by May 2022. The following statement is copied from CVA proposal: Across the Premises, the unpaid balance of the Business Rates of the Company for the current year are proposed to be fully compromised and released in return for participation in the Compromised Creditors' Fund. The Business Rates are compromised by the CVA in this way because it is essential in order to allow the Company to reduce significantly, its cost base in order to achieve the Business and Recovery Plan.
7. The cost to the collection fund of these write offs is shared as follows: central government 50%, Norwich City Council 40% and Norfolk County Council 10%. The Norwich City Council share of write-off's to date for 2020/21 including the ones proposed in this report is £139,058.40.

8. Each year an assessment of debt is undertaken to set the bad debt provision within the collection fund. These write offs will be charged in full against the provision for 2020/21.
