CUSTOMER PERSPECTIVE																	
A1	Customer demand	1. Customer demand exceeds our capacity to deliver services as they are currently configured 2. Transfer of demand arising from service delivery changes or budget cuts by other public agencies 3. Excessive customer demand in key areas, particularly in relation to the need to cut services, or changes to policies eg council tax reduction scheme; universal credit	1. Unable to cope with demand 2. Complaints 3. Reputation damage 4. Increased homelessness risk to housing	EH-CC&C	All	4	4	16 (R)	1. Proactive research on customer profile, forward planning, eg anticipating future events that will generate higher demand and use of data held to map and channel shift. 2. Data capture, consultation, survey and service planning. 3. Being robust about the role and responsibilities of Norwich City Council	3	2	6 (A)	Customer service improvement plan for F2F service - Phase 1	Head of customer services	Ongoing	Mar-16	G
A2	Delivery of the corporate plan and key supporting policies and strategies within the council's strategic framework	Corporate priorities are not on target to be delivered. The council has a clear set of corporate priorities within its corporate plan. Within the council's wider strategic framework, there are a number of key corporate strategies and policies which must be delivered across the organisation to realise the council's priorities e.g. environmental strategy, housing strategy etc Policy from the new government will be further changing the framework for local government and put new requirements on the council that must be met in a number of different areas. When this is combined with the very significant savings the council will need to make to meet the government funding reductions, there is a risk that these changes will reduce the capacity of the council to deliver on its key corporate priorities.	1. Key priorities for the city are not delivered 2. Adverse public opinion 3. Projects / work completed to a lower quality 4. Negative impact on outcomes for citizens 5. Negative performance ratings for the council 6. Continual over-stretching of capacity	EH-SP&N	All	4	4	16 (R)	1. Regular review of corporate plan, medium term financial strategy and other key policies and strategies. 2. Effective performance and programme management 3. Corporate planning and service planning aligned with budget setting to ensure resources are in place to deliver priorities. 4. Effective preparation for changes in government policy. 5. Effective transformation programme to ensure savings are delivered.	2	4	8 (A)

A6	Delivery of Joint Core Strategy (JCS). The council, through the Greater Norwich Growth Board, is seeking to promote delivery of the JCS. If delivered, JCS will see more than 30,000 homes built in the greater Norwich area, and 35,000+ jobs created over next 15 years	Delivery of the JCS may be jeopardised by: 1. One or more district councils failing to identify sufficient sites or bring forward detailed development plans to deliver the JCS in the next five years. 2. Markets failing to deliver on preferred development sites identified for housing 3. The government changing allowed approaches to calculating housing land supply to require all the backlog in housing supply that has arisen since 2008 to be met in the next five-year period rather than over the remainder of the plan period of the JCS (ie up to 2026). 4. Failure to deliver the infrastructure required to support development 5. The council increasingly relies on income from NNDR (business rates). This may be at risk if other councils allow commercial developments on the edge of the city but outside the boundary.	1. Reputation damage 2. Significant likelihood that the overall development strategy for the Greater Norwich area will not be delivered	EH-R&D	2 & 4	3	4	12 (A)	1. Ensuring that strategies being prepared with GNGB colleagues are as robust as possible and firmly grounded in reliable evidence. 2. Inter-authority working based on consensus decision-making ensures all parties are in agreement with the proposed policy framework. 3. All policy work is supported by comprehensive evidence in accordance with government guidelines. 4. Greater Norwich Growth Board responsible for ensuring funding is available for investment in infrastructure to support growth.	2	3	6 (A)				
A8	Housing Investment Strategy As part of the reform of the HRA the council has taken on a substantial debt to replace the former negative housing subsidy system. This debt will be repaid over a period not exceeding 30 years. In addition to debt repayments the council has adopted a new standard for investment in the housing stock and a commitment to fund a new build programme	1. Should the cost of works increase and/or the level of income reduce, then it may be necessary to review the housing investment strategy. 2. In addition, below inflation/rpi increases in rents will impact on income. 3. Reduction in rental income (arising from a high level of council house sales, increasing debt or other factors). 4. Significant increase in the cost of delivering improvement works 5. Failure to deliver by contractors	1. Failure to deliver the Norwich Standard within the expected timescale 2. Lack of resources to support a new build programme. 3. Reduced tenant satisfaction 4. Reduced new build programme.	EH-SP&N	4	3	3	9 (A)	1. Regular review of HRA business plan and housing investment plan to reflect financial position of the HRA. 2. The main control will be the timescale for delivering the Norwich Standard to all properties together with the delivery of any agreed new build programme. 3. Regular review of key projects. 4. Effective contract management 5. Work with Registered Providers to maximise use of retained Right to Buy receipts for the development of new social housing where spend by the Council is not possible.	2	3	6 (A)

RISK SCORING MATRIX

VERY HIGH (V)	5	10	15	20	25
HIGH (H)	4	8	12	16	20
MEDIUM (M)	3	6	9	12	15
LOW (L)	2	4	6	8	10
NEGLIGIBLE	1	2	3	4	5
IMPACT / LIKELIHOOD	VERY RARE	UNLIKELY	POSSIBLE	LIKELY	VERY LIKELY

Red scores – in excess of the council's risk appetite (risk score 16 to 25) – action needed to redress, quarterly monitoring.

In exceptional circumstances cabinet can approve a residual risk in excess of the risk appetite if it is agreed that it is impractical or impossible to reduce the risk level below 16. Such risks should be escalated through the management reporting line to CLT and cabinet (see section 3.8 of the strategy).

Amber scores – likely to cause the council some difficulties (risk score over 5 to 15) – quarterly monitoring

Green scores (risk score 1 to 4) – monitor as necessary

Descriptors to assist in the scoring of risk impact are on the following page

Likelihood scoring is left to the discretion of managers as it is very subjective, but should be based on their experience of the risk

As a guide, the following may be useful:

Very rare - highly unlikely, but it may occur in exceptional circumstances. It could happen, but probably never will

Unlikely - not expected, but there's a slight possibility it may occur at some time

Possible - the event might occur at some time as there is a history of occasional occurrence at the council

Likely - there is a strong possibility the event will occur as there is a history of frequent occurrence at the council

Very likely - the event is expected to occur in most circumstances as there is a history of regular occurrence at the council
