

Planning Applications Committee: 18th October 2012

Updates to reports for consideration.

Application No: 11/02115/F

Page: 21

Further representations: One further letter of objection has been received making the following comments:

- Concerns about the effects of dust and dirt during construction on the trade of nearby local businesses.
- Local business may be forced to close to avoid issues of noise disruption and air pollution.

Amendments to report:

Paragraph 5 of the report states 3no 1 bed flats and 2no 1 bed flats. This should refer to 3no 1 bed flats and 2no 2 bed flats. This is also incorrect in the description of the development.
