Report to Cabinet Item

18 January 2017

Report of Director of neighbourhoods

Subject Award of contracts for structural repairs to Council homes

KEY DECISION

Purpose

To consider the tender process for contracts for structural repairs and improvements to council homes and to consider the award of the contracts.

Recommendation

To:

Approve the award of the structural repair and improvement contracts as follows:

- 1. Somerleyton Gardens and Wilberforce Road concrete repairs and deck membrane replacement to JB Specialist Refurbishments Ltd.
- 2. West Pottergate concrete repairs and deck membrane replacement to Thomas Sinden Ltd.
- 3. Omnia Ph.4 (William Mear Gardens) concrete repairs and staircase replacement to Thomas Sinden Ltd.

Corporate and service priorities

The report helps to meet the corporate priority a healthy city with good housing

Financial implications

The financial consequences of this report are the award of contracts for structural repairs and improvements with a total tendered cost of £889,152.58, which is included within the Housing Revenue Account financial forecasts and budgets for this financial year (2016/17).

Ward/s: Multiple Wards

Cabinet member: Councillor Harris – Deputy Leader and council housing

Background documents

None

Report

Background

- The council has a programme of structural repairs and improvements deemed necessary in order to ensure the housing stock remains in a good state of repair and tenants have quality homes to live in. The contracts covered in this report form a part of this programme of works.
- 2. The scope of the contracts includes concrete repairs and the replacement of external staircases to Omnia style flats at William Mear Gardens and concrete repairs and deck membrane replacement at West Pottergate, Somerleyton Gardens and Wilberforce Road. The staircases are made of reinforced concrete which has deteriorated to a point where it is more economic to replace rather than repair. The deck membranes protect the concrete walkways between flats from water ingress which causes rusting of the steel reinforcement and subsequent structural failure.

Tender process

- 3. The contracts were advertised on the council's e-tendering portal and Business Link/Contracts Finder.
- 4. Suppliers were asked to submit details of their organisation in terms of finance, contractual matters, insurances, quality assurance, environmental standards, health and safety, equality and diversity credentials, references and previous experience. These aspects were then evaluated to ensure that suppliers met the council's basic requirements.
- 5. At the same time suppliers submitted details in the form of method statements proposing how they would meet the requirement for the work package and the price that they would charge to carry out this work. These method statements were evaluated once it had been confirmed that the supplier had met the Council's basic requirements.
- 6. The tender return dates varied between 14 November 2016 and 29 November 2016.

Tender evaluation

- 7. The supplier selection process was the same for each contract. The responses given were evaluated against pre-determined criteria. This quality assessment carried a maximum of 60% of the marks. The lowest price was allocated 40% of the marks and marks were then deducted, pro-rata, with each increasing tender price.
- 8. Four suppliers returned tenders for the first contract and the highest scoring tender was submitted by JB Specialist Refurbishments Ltd.
- 9. Three suppliers returned tenders for the second contract and the highest scoring tender was submitted by Thomas Sinden Ltd.
- 10. One supplier returned a tender for the third contract. This was Thomas Sinden Ltd.
- 11. It is recommended that the contracts be awarded as shown below:

Contract Title	Successful Bidder	Tender Amount
Somerleyton Gardens and Wilberforce Road - concrete repairs and deck membrane replacement	JB Specialist Refurbishments Ltd.	£260,683.36
West Pottergate – concrete repairs and deck membrane replacement	Thomas Sinden Ltd	£188,113.80
Omnia Ph.4 (William Mear Gardens) – concrete repairs and staircase replacement	Thomas Sinden Ltd	£440,355.42

Natural and built environment		\boxtimes		The contract will ensure the built environment is maintained and improved to a high standard.
Waste minimisation & resource use	\boxtimes			
Pollution				
Sustainable procurement				
Energy and climate change				
(Please add an 'x' as appropriate)	Neutral	Positive	Negative	Comments

	Impact			
				1. There is a risk of challenge from an unsuccessful supplier. This risk is mitigated by the fact the value of contracts is below the thresholds in the Public Contracts Regulations. Also the tender has followed an open process with award criteria being based on the lowest compliant tender, but there is always a risk of challenge from unsuccessful suppliers.
Risk management	sk management			2. There is a risk that the appointed supplier could fail during the duration of the contracts. This is low risk due to the relatively short nature of the contracts and the planned nature of the works. In addition to this the Council is not investing in the supplier and so the risk is one of service continuity rather than financial, which is further mitigated by the fact the work is planned not responsive in nature.
