

## APPENDIX 1 Summary

CP1 - Safe and Clean City CP2 - Prosperous City CP3 - Decent Housing for all CP4 - City of Character and Culture CP5 - Value for Money Services

#### Comments

Overall performance for this second quarterly report of 2014-15 against the priorities in the corporate plan 2012-2015 shows a mixed picture with three of our priorities showing as Green and two Amber.

There are some areas where the council is performing very highly and exceeding its targets such as achieving our savings target, street cleanliness, satisfaction with waste collection services, income collection, the number of days taken to re-let council homes, the number of individuals and families who have been helped by homelessness advice, speed of processing of planning applications and overall customer satisfaction.

Of note is the very good performance in relation to the key performance measures underpinning our priority to be a "safe and clean city". All except one of these measures were Green and the one that was Amber, percentage of waste recycled and composted, has high hopes for improvement following the introduction of our improved residential waste recycling provision on 1st October.

However, there are some measures that remain below target. We will continue to work towards improving performance in relation to these and other performance measures that underpin the priorities in our Corporate Plan.

Green is on target, amber between target and cause for concern and red is cause for concern.

For more information please contact the Policy, Performance and Partnerships team on ext 2535 or email <a href="mailto:performance@norwich.gov.uk">performance@norwich.gov.uk</a>

### Key to tables (following pages):

**RAG** - Red, Amber, Green; **DoT** - Direction of Travel: a green upward arrow signifies an improvement in performance compared with the previous reporting period, a red downward arrow shows a drop in performance and a blue horizontal arrow shows no change. **YTD** - data shown is for the (financial) year to date

Actual Target RAG Status

Actual Target Tributing to a higher score on this combined with the aim of improving individual measures, giving better performance to our residents and contributing to a higher score on this combined measure.

To continue to reshape the way the council works to realise our savings targets, protecting and improving services wherever possible and working effectively with partners, through a transformation programme.

VMS4 % of council partners satisfied with the opportunities to engage with the council

78.2

80.0

78.2

78.2

Comments: This is an annual survey of key Council partners carried out in quarter 4 (January - March) each year. The result shown is for the latest survey from earlier in 2014.

Our survey of our key partners on their satisfaction with opportunities to engage with the council showed an increase in the number very satisfied and a decrease in the number dissatisfied. However there was an increase in the number expressing a neutral view resulting in a slight drop in the overall satisfaction rate to 78.2% from 82.5%. There were some very positive comments on engagement. However where areas for improvement have been raised they will be considered and where possible built into future engagement work at both service and council wide level.

To improve the efficiency of the council's customer engagement and access channels.

task and finish project to understand and improve communications taking place.

VMS5 Avoidable contact

5.8 % 2

.

28.5 % 24.5 %

Comments: Q2 performance overall 25.8% shows an improvement against the previous quarter despite the major change in waste and recycling arrangements that resulted in increased contact at the end of this period. Further demand during this period was generated as a result of the changes to Individual Electoral registration which meant that all services were directly affected by this demand.

Encouragingly actual performance on avoidable contact excluding premature closure was better than target each month in this quarter. Further work to drive down avoidable contact is ongoing with a specific

To reach the achieving-level of the equalities framework.

VMS7 Reach "achieving" level of equalities framework

2

oloring in

Comments: We are seeking to attain the achieving level of the equalities framework for local government for 2014/15. This will involve a peer assessment in quarter 4 (January - March 2015), declaring in the following quarter (Q1, April - June 2015). A project team has been set up and a project plan and self-assessment are being developed to map the organisation's journey and address any concerns.

Key Action	▲ Measure	Actual	Target	RAG Status	DoT	Actual YTD	Target YTD	RAG YTD
To continue to reshape the way the council works to realise our savings targets, protecting and improving services wherever possible and working effectively with partners, through a transformation programme.	VMS1 Council achieves savings target (£ thousands)	3,200	2,000	*	***	3,200	2,000	*
Comments: We successfully delivered a package of general fund sa	avings of £3.2 million for 2014/15 against our target of £2.0 m	illion.						
To improve the efficiency of the council's customer engagement and access channels.	VMS2 % residents satisfied with service from council	95.3 %	93.0 %	*	?	95.3 %	93.0 %	*
Comments: Over 800 customers were surveyed, exceeding previou	is numbers and customer satisfaction with contact with the co	ouncil at 95°	% is above	target (93	%).			
To maximise council income through effective asset management, trading and collection activities.	VMS6 % of income owed to the council collected	98 %	96 %	*	<b></b>	98 %	96 %	*
Comments: This is a combination of % council tax, NNDR, Housing 97.3% of "amount due"); NNDR (£46.8m, 98.2% of "amount due"); Housing							Council Ta	ax (£30m,
To reduce the council's carbon emissions through a carbon management programme.	VMS8 % CO2 reduction from local authority operations	5.38	4.00	*	*	5.38	4.00	*

Comments: The target for reduction in overall (i.e. all scopes) CO2 emissions has been re-set to 40%, from a 2006/07 baseline following the completion of the first phase of the council's carbon management plan. This target exceeds the national target of a 34% reduction in carbon emissions by 2020. On completion of this report 26.6% of the 40% target has been achieved so far. The council has recently produced the second phase of its Carbon Management Plan. The plan details opportunities across our assets and services where we can further reduce energy consumption. Given the new Government methodology we will be further reviewing the Carbon Management Plan targets.
