Report

Background

1. Since on street parking enforcement in Norwich was decriminalised in 2002, the city council has carried out enforcement on behalf Norfolk County Council. This was initially done under a service level agreement and was later included with the highways agency agreement.
2. The county council terminated the highways agency agreement on 31 March 2020, following a decision made by their Environment, Transport and Development committee on 18 January 2019. However, they asked that the city council to continue to carry out CPE, alongside enforcement of delegated moving traffic offences (which currently extends only to bus lanes); this is subject to a separate agreement. A short-term temporary agreement is currently in place to allow parking enforcement in the City pending consideration of this report.
3. In 18/19 on street enforcement generated £2,497,367 of income and incurred costs of £2,177,948, resulting in a surplus of £280,779 that was paid to Norfolk County Council
4. Norwich was one of the first places in the UK to adopt CPE in 2002; CPE came to the rest of Norfolk many years later. At that time, the county council set up the NPP to oversee a commonality of approach among the district councils outside of the city and the ability for the districts to share back office systems and enforcement regimes. As the city council had its' own well established practices and systems it was decided that they would not formally be included in the NPP, but instead would work closely with it.

Proposed arrangements

5. During the discussions around the agency termination, the county council indicated that they wished to enter into an agreement with the city council to enforce CPE in the city, ahead of a countywide review of the Norfolk Parking Partnership (NPP). It is the desire of the county council that Norwich becomes an integral part of the parking partnership moving forward. As such, the agreement proposed is an interim one expected to last two years. It is intended that the new NPP agreement will then replace this interim agreement.
6. A copy of interim agreement is attached as appendix 1. In summary, it proposes the following;
 - a. A 2 year agreement with the option to extend by up to a further 3 years
 - b. All aspects of on street parking enforcement and adjudication is delegated to the city
 - c. The county council will be responsible for setting all fees and charges for on street pay and display parking and permits, but these fees and charges will be recommended by the city council

- d. The city council shall produce a business plan for the forthcoming year by the end of Q3 and should actively identify service improvements and efficiencies
 - e. Both sides are required to give 18 months' notice to terminate the contract
 - f. The county council undertakes to cover all reasonable costs that the city council incurs in carrying out CPE
 - g. Any surplus generated by CPE will fund transport projects in the Norwich administrative area.
 - h. The city will be responsible for identifying and consulting on any changes required to parking restrictions within the city. The county council will be responsible for implementing the changes.
 - i. All amendments to the traffic regulation orders (TROs) that support CPE will follow the county council's procedures.
7. This is broadly in line with the previous arrangements under the highways agency agreement. The main differences are
- a. The city council were responsible for covering that deficit if CPE made a loss in any financial year
 - b. Any surplus could be spent anywhere in the Norwich Area Transportation Strategy area
 - c. Norwich highways agency committee agreed all amendments to fees, charges and TROs.
8. Given the current Covid 19 pandemic, the removal of the responsibility for covering any deficit is particularly welcome. Discussions continue with Norfolk county council on how this will be recovered moving forward, and every effort is being made to minimise that cost to the CPE account.

Permanent Agreement

9. With the interim agreement in place, efforts will then be concentrated on reaching an agreement for Norwich to become fully-fledged members of the NPP. This will allow for greater operational flexibility across the whole county and potentially means that there is the opportunity to share enforcement staff and back offices systems with other districts. It also presents the opportunity to share emerging new technologies such as cashless parking options.
10. If, following negotiations, the city council is not satisfied that the new NPP offers terms that are acceptable, then would be time to serve notice to relinquish responsibility for CPE enforcement.

Implications of Norwich not being the enforcement authority for the city.

11. Should the council decide that it no longer wishes to carry out on street parking enforcement, there will be TUPE implications across a number of areas of the council. 85% of the workload of the parking operations team is about enforcing CPE. Enforcement in off street pay and display surface car parks and housing car parks accounts for the rest. There could also be impacts on other council

departments most noticeably customer contact team who deal with permit issuing and the initial challenges to penalty charge notices, and the HR and finance teams.

12. Without on street enforcement, it would make the operational management of the city council's own off street parking operation more challenging. There are economies of scale in being able to patrol both on and off street at the same time. With more staff, it is easier to offer a 7-day service that includes enforcement into the evenings. A much smaller team of enforcement staff will have less resilience around staff absences and out of hours cover

Conclusion

13. The proposal is that the city council agree to enter into an agreement with Norfolk county council for the provision of on street civil parking enforcement services, for a period until 31 March 2022 (with an option to extend by up to 3 years), or until a revised Norfolk Parking Partnership agreement is in place, whichever is soonest.

Recommendations from impact assessment

Positive

With the city council managing the CPE in the city, there is an opportunity to help influence transportation policy within the city by, for example, limiting the number of permits issued to a household, to encourage more walking and cycling. It also helps to reduce carbon emissions and pollution.

The removal of the financial risk, when compared to previous agreements, is welcome

THE NORFOLK COUNTY COUNCIL of County Hall, Martineau Lane, Norwich, NR1 2DH (“County Council”) and

NORWICH CITY COUNCIL of City Hall, St Peter’s Street, Norwich NR2 1NH, (“City Council”)

(collectively referred to in this Agreement as “the Councils”).

WHEREAS

- (1) The Councils are local authorities within the meaning of the 1972 Act and the 2000 Act.
- (2) The Councils had previously agreed to delegate the decriminalised enforcement of parking in Norwich by way of an agreement dated 15 April 2009 to the City Council. - (3) The 2009 Agreement referred to in paragraph (2) above was superseded by a later agreement between the parties for the delegation of wider highways functions to the City Council, known as the Highways Agency Agreement, dated 19 September 2014. It is the parties' understanding therefore that the 2009 agreement was terminated at that time.
- (4) The parties, by separate arrangements, have agreed to the termination of the Highways Agency Agreement from 31 March 2020. They therefore now wish to re-establish a framework for the provision of civil parking enforcement services in Norwich from the date specified in this Agreement until such time as the parties are ready to incorporate the services into the Norfolk Parking Partnership (an agreement between the County Councils and the districts in Norfolk dated 9 January 2012 (as amended) which established the joint committee).
- (5) By virtue of Section 19 of the 2000 Act and the Local Authorities (Arrangements for the Discharge of Functions) (England) Regulations 2000 the executive of a local authority may arrange for functions which are the responsibility of the executive of the local authority to be discharged by another local authority or the executive of another local authority.
- (6) Further to paragraph 4 above, the County Council has agreed to delegate to the City Council pursuant to Section 19 of the 2000 Act its on street civil parking enforcement and related functions and the City Council have agreed to accept such delegation.
- (7) The Councils have agreed to discharge their civil parking enforcement and related functions under this Agreement.

- (8) It is the intention of the Councils that the costs associated with the delegation under this Agreement will be met by the income produced by civil parking enforcement. Furthermore the County Council is responsible for the reasonable costs of Norwich City Council in undertaking their obligations under this Agreement.
